## **STRUCTURE/MODEL**

The Forsyth County Drug Court is a hybrid model of pre-adjudication and post-adjudication offered to eligible participants charged with felony drug offenses or other offenses deemed appropriate by the District Attorney's Office. Entry into the program is completely voluntary and is indicative of only one option available to defendants. Typically, those found guilty of first-time drug possession are sentenced to 3-5 years to be served on probation, fines, fees, community service, drug screens, a drug and alcohol assessment and follow-up to the recommendations made in that assessment, etc.

Drug Court is also offered as an alternative to revocation for eligible offenders who are on probation and subsequently test positive for drugs or obtain substance-related charges.

Drug Court offers a more forgiving program for those offenders who have a drug addiction and want help fighting it. For example, the first time a Drug Court participant tests positive for drugs or alcohol, the sanction does not result in jail time. The sanctions will be progressive in severity if violations continue. However, if offenders test positive for drugs while on probation and are revoked, it is likely they will be sent to a Probation Detention Center for 60 to 120 days.

The Drug Court Case Manager advises the participants of their requirements and conditions. The Drug Court Case Manager maintains records of the participant program fee payments, residence, employment, case status and other information. The Drug Court Case Manager manages all participant files and maintains updates. The Drug Court Case Manager can administer drug screens to test for drugs/alcohol.

## **TARGET POPULATION**

The target population for the Forsyth County Drug Court includes those charged with felony drug offenses, and those on probation who test positive for drugs or obtain substance-related charges. Additionally, participants must meet clinical criteria for having substance abuse or dependence with a focus on moderate to high risk/need offenders.

The Forsyth County Drug Court will not knowingly accept those known or thought to be involved with the sale or distribution of drugs, validated gang members, or those previously convicted of violent felonies.

**\*\***We will provide a safe, welcoming, and supportive environment for all people and promote an area of growth for each person who enters our programs. We will create a therapeutic environment that broadens our understanding and appreciation of multiculturalism and diversity. ## ENTRY PROCESS

After arrest, defendants are identified by jail personnel and the District Attorney's Office, or by the Probation Officer, as potentially eligible for the Forsyth County Drug Court Program. They are given a bond in the usual manner. The District Attorney's Office sends notice of their Drug Court Review Date on the soonest Friday practicable after their bond, typically within two to three weeks of release. Those unable to make bond, or those on probation, are placed on a Drug Court Considerations Calendar on the earliest Friday after seven (7) days in custody (to increase the likelihood of making a decision while sober).

On their bond returnable date, those who have made bond report to the Accountability Court Office at 425 Tribble Gap Road, Cumming, Georgia 30040 to meet with defense counsel about the specifics of their case and the requirements of the program. Those still in jail will be seen by the defense attorney at the jail prior to clinical assessments.

If a defendant is not interested, their case is placed on the regular trial track. Those on probation who decline Drug Court are placed on the next revocation calendar.

If interested in the program, defendant's residency is verified, and defendants complete a clinical evaluation. Results of clinical evaluation, including risk assessment and ASAM level are entered into case management system by a member of the treatment team. Following that evaluation, interested and referred defendants are given a date to return to Drug Court, or if incarcerated, are brought over to Drug Court, on Tuesday at 3:00 PM to enter the program, following execution of the contract packet.

The Drug Court Team consists of the Judge, District Attorney, Defense Attorney, Accountability Court staff, Felony Probation, law enforcement, Pre-Trial Services, and treatment representatives. The Team meets at 1:30 PM on Tuesday to determine who will be offered entry into the program and to review the progress of current participants as presented on the spreadsheet. Those who are accepted enter their plea in Drug Court at 3:00 PM and will attend orientation on Wednesday and begin screening and groups immediately.

The Drug Court Judge presides over Drug Court sessions. If unavailable, a Senior Judge will be utilized, or Court will be cancelled.

If a defendant is legally and clinically eligible but the Team deems them unsuitable, they will be placed on the regular trial track or the next revocation calendar.

The anticipated maximum length of time between arrest and entry into the program is 14 days.\*  
The anticipated minimum length of time between arrest and entry into the program is 8 days.\*  
\*these do not include those after violating probation or timeframes during a national pandemic

Upon request by another jurisdiction, cases will be considered for supervision or transfer. Such cases will be placed on the calendar and reviewed by the Drug Court Team.

## **PHASES**

The Forsyth County Drug Court is a minimum of 24 months in duration (maximum of 4 years) and consists of five phases. Phase 1 is the Preparation Phase, Phase 2 is the Education Phase, Phase 3 is the Maintenance Phase, and the last phases are dedicated to re-entry into unsupervised society and aftercare. Upon entry into the Program, an Individualized Treatment Plan will be created for each participant. The Individualized Treatment Plan will be updated upon phase move. Participants may be eligible for a maximum benefit once they reach 36 months in the program.

### **Phase Requirements**

Phase 1 is a minimum of three months in duration. Participants will attend court sessions weekly. Treatment groups will occur a minimum of three times a week combined with a minimum of two random, observed drug screens each week. Participants are required to meet with Case Manager one time per week, initially, then, as directed by the Accountability Court office. Participants are also required to write their life story before being eligible to phase up.

Phase 2 requires a minimum of six months. Participants will continue to attend court weekly. Group attendance decreases to a minimum of two times a week with random, observed drug screens remaining at a minimum of two per week. Must attend at least one Community Support meeting per week. Participants must complete the GED pre-test, if they cannot provide proof of a GED or High School Diploma, during Phase 2.

Phase 3 will last a minimum of six months. Court sessions will be attended twice a month. Treatment groups will continue at a minimum of two a week along with at least two random, observed drug screens. Three Individual Counseling sessions will be completed, if not completed in earlier phases. Must attend at least two Community Support meetings per week. Participants must take the GED or classes for educational advancement, as directed by the ACO Staff during Phase 3.

Phase 4 will last a minimum of five months. Court sessions will be attended once a month. Treatment groups will decrease to a minimum of one a week along with random, observed drug screens weekly. Must attend at least three Community Support meetings per week.

Phase 5 and Aftercare Phase will be at least four months in duration.

Phase 5: Court sessions will be attended once a month. Groups will be reduced to a minimum of two a month and random, observed drug screens will occur at least weekly. Must attend at least three Community Support meetings per week.

Participants will have the opportunity to move to the Aftercare Phase, if they have completed their entire graduation packet and all responsibilities, after two months in Phase 5.

Aftercare Phase: If a participant completes their entire graduation packet and all responsibilities in Phase 5 and is moved to Aftercare Phase, they are required to continue screening, but many

requirements will be lifted. During Aftercare Phase, if it is determined by the Accountability Court Staff or Treatment, the participant can be moved back to the Phase 5 schedule.

The number of meetings, etc., listed here are minimum requirements. It may be necessary for participants to submit to individual counseling, additional groups, court sessions, and/or screens based on their level of commitment, progress, etc.

### **Residential Treatment**

If you enter residential treatment as a part of your Drug Court treatment requirements, you will be required to attend court quarterly. These dates will be provided to you and the residential facility. Once in residential treatment for twelve (12) months, the participant will undergo a reassessment at the Accountability Court Office to determine ongoing needs level. Upon return from residential, the participant shall return to the phase they were in when they left. Within 30 days of return, a therapeutic evaluation will be completed and appropriate placement recommendations will be made. This process will not exceed 30 days unless recommended by treatment team. This can result in moving to a higher or lower phase. If residential is successfully completed, upon meeting the measures required, they may still graduate in 24 months. If residential is not successfully completed, upon reentry into the program, the earliest available graduation date shall be determined.

### **Leave Requests**

Leave requests must be submitted, in writing, to the Accountability Court office on the Monday immediately prior to the leave request. Participants in Phase 1 will not be granted leave for any reason other than emergencies and/or documented court appearances, etc. Phase 2 participants will be granted 2 leave requests. Phase 3 participants will be granted 2 leave requests. Phase 4 participants will be granted 2 leave requests. Phase 5 participants will be granted 2 leave requests. If group is missed during a leave, the participant must make up the group within two weeks of the leave being granted. In Phases 2 and 3, only 1 group may be missed per leave request. In Phases 4 and 5, participants shall not miss a group while on leave. These requests are apart from any emergency, subpoena, court appearance, etc. Participants are required to provide a urine screen on the day they return from leave. On weekdays, if there is not a screen at the screening location, the participant is required to report to the drug court office by 9 am. Any questions may be directed to the Accountability Court office for clarification.

### **Medical Leave**

Medical leave is defined as the period of time during which a medical doctor states that a participant cannot (either in hospital or on bed rest) attend/participate in Drug Court sessions of any kind outside of the hospital or home. A Medical Leave Form will be completed by participant (in advance when possible) and reviewed by Treatment Team at Drug Court staffing for approval. During weeks one (1) through six (6) of Medical Leave, the participant is responsible for following the directions of the Accountability Court office including pill counts, weekly status reports, and doctor visit updates. When a participant has been on Medical Leave for six (6) weeks, the participant's future in the program will be discussed. The participant shall be required to attend court and appear for drug screens as directed by Drug Court staff during their medical leave. Participants on medical leave from the program are still subject to the rules and

regulations of the Drug Court Program and any violations can be addressed while the participant is on Medical Leave, or upon return.

Maternity leave will require similar documentation but the leave will be approved as follows (with the exception of extenuating circumstances): a female participant will be excused from all Drug Court participation for two weeks following birth. For weeks three and four, the female participant will be required to submit to screens as normal. At the conclusion of the fourth week following birth, the participant shall return to their regular Drug Court schedule.

**Fees**

Participants are charged monthly fees to recoup some costs for court, treatment, drug screens, and defense attorney costs. Fees are expected to be paid in a timely manner. If a participant falls behind, sanctions will be imposed until they are current. For those in residential programs, minimum payments necessary to move from one phase to the next must be made before a phase move will be considered.

## **Termination Criteria**

Termination will be considered as a “last resort.” If termination becomes necessary, the State, in a Drug Court session, will give oral notice to the participant of a termination hearing with the expectation that the participant will contact the defense attorney and be prepared for said hearing the following week in Drug Court. The staff shall be provided access to all records, as allowed by the release of confidentiality, to be viewed in the Accountability Court Office. Attorneys (prosecutor, Drug Court defense attorney, and/or retained counsel) may look at and make notes from the file of the participant facing termination but will not be allowed to make copies of or leave the Accountability Court Office with the file.

The Forsyth County Drug Court has identified criteria to be used in deciding whether to terminate a participant from the program. The following will be used as guidelines only and the final decision rests with the trial Judge after a hearing.

- Commission of a new offense; felonies are presumed termination to be determined at hearing, misdemeanors will be at the discretion of the staff

**\*\*Admission only valid if sign in sheet is filled out in its entirety prior to providing sample (to include circling yes, specifying which substance, and including the date of last use).**

**A 2 hour window is provided for all drug screens. If a screen is announced at group (not on the daily call), the 2 hours begin at the time of check-in. Participants may screen until group begins and again for 15 minutes following the conclusion of group. Failure to submit a screen during those times will result in a missed screen for sanctioning purposes. This scenario applies even if one is**

**late for or not allowed to enter group. Missing a screen announced at group will count as a missed screen for sanctioning purposes.**

- Regarding THC use: Upon entry, participants who have been positive for marijuana will need to achieve two consecutive negative screens with at least 4 days between the screens. The participants' creatinine ratio shall be utilized to determine new use. **A THC/creatinine ratio of 1.5 or higher will be considered a positive with denial screen. \*\*In unconventional situations where a participant remains positive for longer than 30 days, seek toxicological assistance. An oral report to the drug court staff is adequate.\*\***

**\*\*Sobriety Incentive:** Participants will get a screen roll-back each 6 months they go without a positive, missed, or dilute urine screen. There is no limit on how many roll-backs a participant may receive. A participant may not roll back to their first screen (community service).

- If a participant successfully completes residential treatment (minimum of 9 months), they receive 2 drug screen roll backs (ex.: 3<sup>rd</sup> would be treated as 1<sup>st</sup>)
- **Participants are required to report to the Drug Court office on the first business day after release from jail for a drug sanction or a jail sanction of three days or greater. Failure to report results in mandated counseling. If the participant is already in mandated individual, they must complete 8 hours of CSW.**

While in the program, participants will engage in evidence-based curricula such as Matrix Early Recovery Skills, MRT, Criminal and Addictive Thinking, Staying Quit, etc. When said curricula involves workbooks or worksheets, these will be provided by the Drug Court Program. It is the responsibility of each individual participant to keep up with and bring workbooks and/or worksheets to group sessions. There are also many specialty groups which will be offered and/or required as participants progress through the program. These groups include Anger Management, Untangling Relationships, Self-esteem, Dialectical Behavior Therapy, Healthy Relationships, and other identified topics.

certification/licensure through required continuing education. As of 2014, licensees must have 35 hours of continuing education. Additionally, the contracted treatment provider shall adhere to the continuing education requirements of all Accountability Court staff as noted on page 2 of this manual.

## **SUPERVISION PROTOCOL**

Forsyth County Drug Court participant cases will be managed by the Accountability Court office and staff. The Accountability Court Office is responsible for maintaining client records regarding group attendance, meeting attendance, fulfillment of community service requirements, drug screen requirements and results, sanctions and incentives, demographic information, and all other pertinent information. The information will be stored in the drug court case management system. The Accountability Court Office will gather such information from necessary agencies and then prepare weekly progress notes on each participant to be used in Treatment Team staffing and in court. This information must be as current and accurate as possible to ensure continuity and fairness in the sanctioning process. All communication between agencies shall be governed by the release of information signed by each participant. If an accusation of wrongdoing is made by a participant about a staff member, treatment provider, community service supervisor or others they have contact with through the requirements of the Drug Court Program, the receiving agency shall report it immediately (within no more than 24 hours) to the Accountability Court office. This does not supersede any agency reporting requirements already in place. The Accountability Court office will notify the Judge and District Attorney.

Data collected by Accountability Court Staff is used to complete CACJ requirements and make improvements to policies. These policies are discussed at planning group and steering committee meetings.

Throughout the program, Drug Court participants are subject to quarterly searches of their person, vehicle, residence, phones, etc., by law enforcement pursuant to their waiver of 4<sup>th</sup> Amendment Rights. The participant must have a searchable house/room. During such searches, deputies may perform breathalyzers, search phones, look in refrigerators, open cabinets, etc., to determine if the participant is in possession of drugs or alcohol and in compliance with the program rules. If a participant tests positive for alcohol/drugs during a search, the deputy will notify the Accountability Court Office and the participant will be required to attend the next Drug Court session where sanctions may be imposed. Additionally, if illegal drugs, drug paraphernalia, or other contraband is located, the participant may be arrested on new charges or face sanctions, which may result in termination from the Drug Court Program. When law enforcement attempts to complete a search, they must be allowed to enter the residence.

## TESTING PROTOCOL

All participants are required to have random drug screens and will be given drug screening instructions upon entry into the program. For the duration of Drug Court participation, it is the participant's responsibility to check daily to determine if they are required to drug test that day. Drug testing is performed on a random basis; however, a breath or urine specimen may be required at any time. **Participants must call each day to determine if a screen is required. If, for any reason, they cannot access this information by phone or the recorded message is not clear, it is their responsibility to report to the screening facility during scheduled drug testing hours.**

Each drug screen participant will be required to call or do a web check-in on a daily basis to determine if they are to report for a UDS that day. When instructed to submit a random UDS, participants are provided a 3-hour window during which they should report to the screening facility to provide a specimen. Testing times are as follows but may be subject to change with notification: Sunday to Saturday 6:00 am to 9:00 am. All tests are analyzed through Abbott. Breathalyzing equipment is also on-site to allow for testing of participants for alcohol at any time. Ethyl glucuronide testing (EtG) is used to detect the ingestion of ethyl alcohol within the previous 3 – 4 days, or approximately 80 hours after alcohol has been consumed. EtG samples are sent to Abbott for test results. Other laboratory tests may also be performed to ensure abstinence from prohibited substances. The random drug screen or EtG may be conducted any day of the week.

If a screen is announced upon arrival for group and not on the phone system, the 2-hour window starts at the beginning of check-in. Screens will be performed until group starts and then again for 15 minutes following the conclusion of group. Failure to provide a screen during those times will be considered a missed screen. If late or not allowed to enter group due to being late, the same time restraints apply.

All collected specimens are sent directly to Abbott. Contracted lab enters results, which are communicated electronically to the case management system. Any initial positives are confirmed through LCMS or GCMS.

All *regular, announced* drug testing will be conducted at the screening facility; however, other tests may be conducted at the Courthouse, Probation Office, Drug Court Accountability Court office's Office, Participant's location, or other Accountability Court event location. Drug testing days will be randomly chosen with a two-hour compliance window. **Late arrivals will not be allowed to test and failure to submit a specimen will be considered a positive screen. Tampering with or diluting a drug screen can be grounds for termination from the Forsyth County Drug Court Program.**

### **Upon reporting for a drug screen:**

1. Only one participant is allowed in the testing area at one time. Each participant must sign in and be checked in by a screener. A same-sex staff member must accompany participants at all times during the drug screening process.

2. Participants must make sure that they hand their specimen to a staff member and watch them put the participant's label on the vial/bottle/screen.
3. Participants must indicate an admission or denial of use prior to submitting the screen and grant permission for confirmation of results if appropriate. **Honesty is a crucial component for recovery and participation in the Forsyth County Drug Court Program. Self-disclosure of use will be considered by the court when sanctions are imposed.**
4. Participants will not be allowed to leave the testing area or drink excessive fluids until a specimen is received. It is suggested that clients not drink any fluids 2 hours prior to screening to avoid possibility of dilution.
5. A staff member of the same sex must always witness the sample being given.
6. Participants must not carry purses, coats, bags, etc. into the testing area.
7. Participant must wash hands thoroughly prior to providing specimen.
8. Shirt sleeves should be rolled up to the elbow and participants may be required to remove additional clothing to ensure validity of specimen.
9. The test cup must contain a minimum of 1/3 level to be adequate for testing.

Participants may not be able to stop using drugs immediately and recovery may not occur overnight. However, all use of illegal drugs or alcohol will be sanctioned. This is not intended as a punishment, but to encourage sobriety. Thus, the ultimate goal of drug testing is to provide accountability and confirmation of an individual's progress towards recovery.

## **MEMORANDUMS OF UNDERSTANDING**
